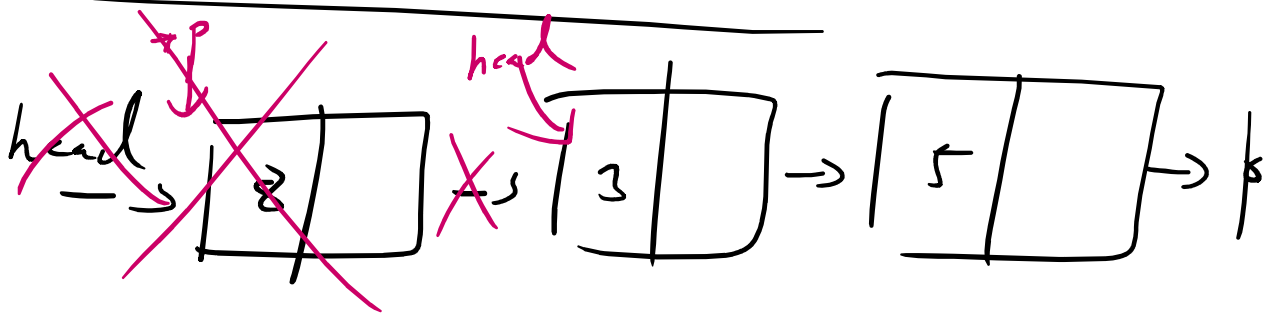
16-03-2026 - Use Linked Lists to solve problems in diverse applications.

16 March 2026 09:18

=> Deletion : Linked List



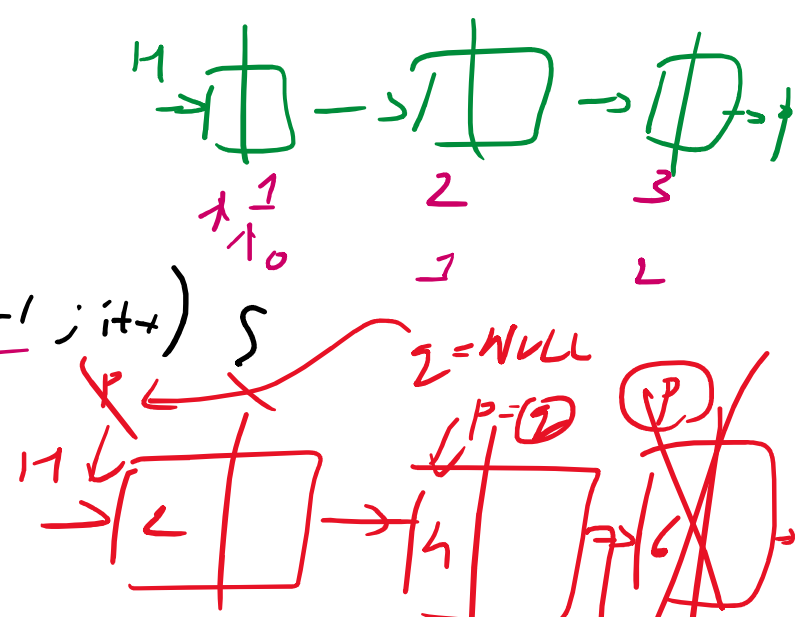
=> Delete First Element :

```
Node *p = head;
head = head->next
x = p->data
delete p
```

=> Delete Based on Position :

```
Node *p = head
Node *q = NULL

for(i=0; i<pos-1; i++) {
    q = p
    p = p->next;
}
```



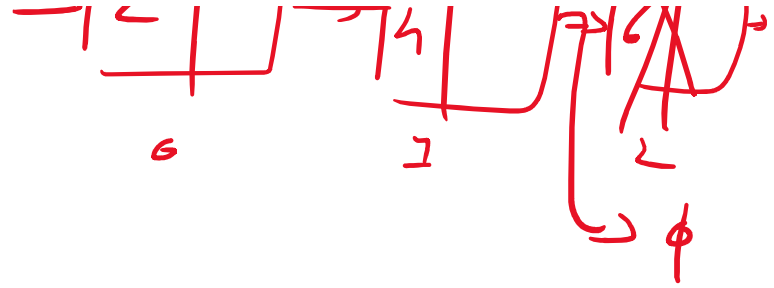
p = p->next

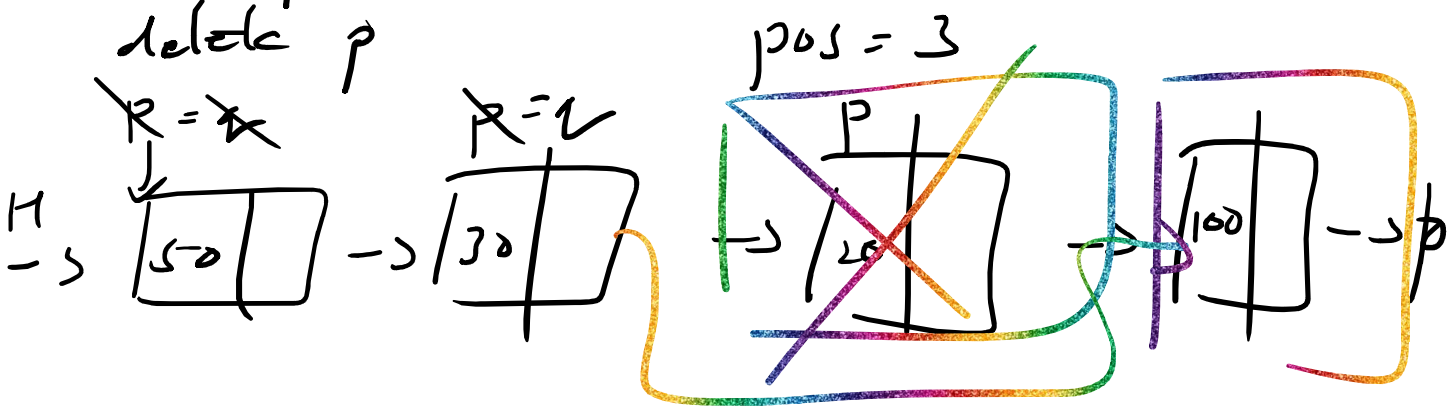
3

q->next = p->next

x = p->data

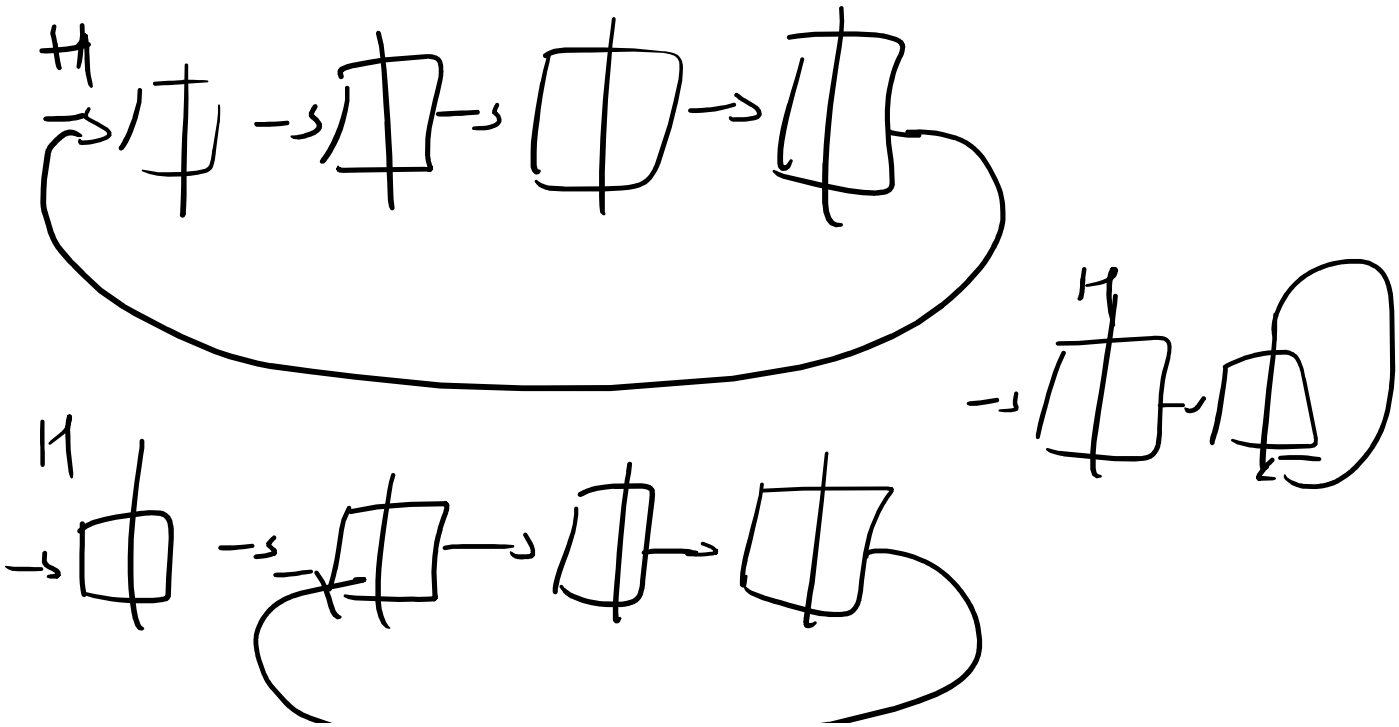
delete p

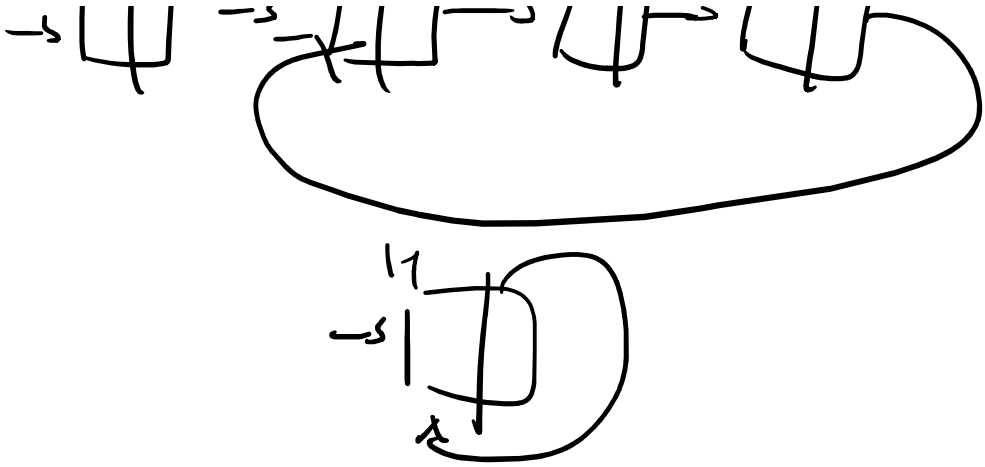




q = NULL

i = ~~0~~ ~~1~~ 2

pos = 2




=> Circular Linked List:
